Projects

Library 2025
College Library Website — [GitHub](#)

- Developed as a part of hackathon to digitize the college library system and enable students to access, reserve, and review books online, reducing manual work for librarians.
- Integrated Firebase Authentication for secure and role-based access for students and staff.
- Deployed RESTful APIs for real-time book search, borrowing logs, and availability tracking.
- **Tech Stack:** HTML/CSS, JavaScript, Firebase Authentication

Educonnect 2025
College Project

- Designed and developed a comprehensive web platform using React.js to bridge the gap between students, educators, and potential employers within a college ecosystem.
- Implemented features such as user profiles, role-based dashboards, job/internship postings, and event announcements to streamline academic and career interactions.
- **Tech Stack:** React.JS, HTML/CSS, JavaScript, Firebase (Authentication & Realtime DB)

Achievements

- 500+ solved questions on various competitive platforms.
- **SIH'24:** Our team worked on the problem statement 'Measurement and Monitoring of Counter Services (1752)'.

Positions of Responsibility

Operations Lead, Culture IT 2024-25
VIT Chennai

- In charge of managing the operations of the official various cultural events of the college.
